Maastricht University - Holland High Potential Scholarship 2017/2018

Descrição

The Maastricht University is the most international university in the Netherlands and, with more than 16,000 students and 4,000 employees, is still growing. The university stands out for its innovative education model, international character and multidisciplinary approach to research and education.

The [Holland High Potential Scholarship](#) is intended for excellent students from outside the European Union/European Economic Area (EU/EEA) who wish to do a master's or a professional education programme at Maastricht University.

Data Limite

February 1, 2017.

Elegibilidade

The applicants must come from a country outside the EU/EEA and meet the requirements for obtaining an entry visa and residence permit for the Netherlands. They are not over 35 years of age at the start of the 2017/2018 academic year and have never studied at an education institution in the Netherlands.

Benefícios

1. Living expenses: €10,500.00;
2. Insurances: €520.00;
3. Visa costs: €311.00;
4. Tuition fees: €13,000.00 or €17,500.00.

Forma de Solicitação

The applicants must register for a [Master's Programme](#) (MA) at Maastricht University. Once they are accepted to the MA programme, they will receive a student ID number. With this number, they can login in [MyUM](#).

In MyUm, the applicants can upload the necessary documents, including the scan of their completed [Application Form](#).

MSA - Grant for Student Research in Mineralogy and Petrology 2018

Descrição

The Mineralogical Society of America (MSA) was founded in 1919 for the advancement of mineralogy, crystallography, geochemistry, petrology, and promotion of their uses in other sciences, industry, and the arts. It encourages fundamental research about natural materials and supports the teaching of mineralogical concepts and procedures.

The [Grant for Student Research in Mineralogy and Petrology](#) is awarded for research in mineralogy and petrology. Students, including graduate and undergraduate students, are encouraged to apply. However, all proposals are considered together. The Award selection will be based on the qualifications of the applicant, the quality, innovativeness, and scientific significance of the research, and the likelihood of success of the project.

Data Limite

March 1, 2018.

Elegibilidade

Applicants should:

1. Be more than one year from completing their degrees;
2. Have not obtained a Ph.D. (or equivalent);
3. May not apply for both this and the [Grant for Research in Crystallography](#) in the same year.

Valor Financiado

Two Awards of up to US\$5,000.00 each.

Note: The Grant is for research-related expenses only.

Restrições

1. Travel to meetings, conferences, short courses, non-research fieldtrips, tuition, non-research living (room and board) expenses, overhead or indirect costs, are not suitable uses of the money;
2. Neither should the money be used for salary or wages for the researcher. Proposals that make such requests will not be considered further.

Forma de Solicitação

Proposal submissions for the Grant are to be made [Online](#).
