Endeavour Vocational Education and Training (VET) Scholarship 2018

Descrição

The Endeavour Scholarships and Fellowships are the Australian Government's competitive, merit-based scholarships and fellowships providing opportunities for Australians to undertake study, research or professional development overseas and for overseas citizens to do the same in Australia.

The [Endeavour Vocational Education and Training \(VET\) Scholarship](#) provides financial support for international applicants to undertake VET at a Diploma, Advanced Diploma or Associate Degree level in any field in Australia for up to two and a half years. VET provides occupational or workrelated knowledge and skills.

Note: The courses are directly related to a trade, occupation or 'vocation' in which the applicant participates. Those courses exclude degree and higher level programs normally delivered by universities.

Data Limite

June 30, 2017, 11:59 pm (Australian Eastern Standard time).

Elegibilidade

Applicants must:

1. Be aged eighteen years or over at the commencement of their Program;
2. Be a citizen and/or permanent resident of a participating country ([Section 8](#) - page 12);
3. Commence their proposed program after January 1, 2018 and no later than November 30, 2018;
4. Provide all relevant supporting documentation ([Section 9](#) - page 13);
5. Not currently hold or have completed, after January 1, 2016, an [Australian Government Sponsored Scholarship and/or Fellowship](#) (directly administered to recipients by the Australian Government);
6. Not apply for a category in which they have already completed an Endeavour scholarship or fellowship.

Benefícios

All recipients will receive:

1. Travel allowance: A\$3,000.00 (provision to pay up to A\$4,500.00 under special circumstances);

2. Establishment allowance: A\$2,000.00 (fellowships) or A\$4,000.00 (scholarships);
3. Monthly stipend: A\$3,000.00 (paid up to the maximum category duration on a pro-rata basis);
4. Health insurance for the full category duration (OSHC for international recipients);
5. Travel insurance (excluding during program for international recipients);
6. Tuition fees: scholarship recipients will also receive tuition fees paid up to the maximum study/research duration on a pro-rata basis. Tuition includes student service and amenities fees.

Note: For more information applicants must see the [Financial Benefits](#) section (page 7).

Restrições

Applicants who have already commenced or will commence their intended program prior to 2018 are not eligible to apply.

Forma de Solicitação

Applicants must see [How to Apply](#) (page 10).

Endeavour Executive Fellowship 2018

Descrição

The Endeavour Scholarships and Fellowships are the Australian Government's competitive, merit-based scholarships and fellowships providing opportunities for Australians to undertake study, research or professional development overseas and for overseas citizens to do the same in Australia.

The [Endeavour Executive Fellowship](#) provides financial support towards professional development opportunities (one-four months) for high achievers in business, industry, education or government for international and Australian applicants. The Fellowship focuses on learning and building skills and knowledge through a host work environment in the applicant's field or area of expertise rather than through formal enrolment in a study program.

Data Limite

June 30, 2017, 11:59 pm (Australian Eastern Standard time).

Elegibilidade

Applicants must:

1. Be aged eighteen years or over at the commencement of their Program;
2. Be a citizen and/or permanent resident of a participating country ([Section 8](#) - page 12);
3. Commence their proposed program after January 1, 2018 and no later than November 30, 2018;
4. Provide all relevant supporting documentation ([Section 9](#) - page 13);
5. Not currently hold or have completed, after January 1, 2016, an [Australian Government Sponsored Scholarship and/or Fellowship](#) (directly administered to recipients by the Australian Government);
6. Not apply for a category in which they have already completed an Endeavour scholarship or fellowship.

Benefícios

All recipients will receive:

1. Travel allowance: A\$3,000.00 (provision to pay up to A\$4,500.00 under special circumstances);
2. Establishment allowance: A\$2,000.00 (fellowships) or A\$4,000.00 (scholarships);
3. Monthly stipend: A\$3,000.00 (paid up to the maximum category duration on a pro-rata basis);
4. Health insurance for the full category duration (OSHC for international recipients);
5. Travel insurance (excluding during program for international recipients);
6. Tuition fees: scholarship recipients will also receive tuition fees paid up to the maximum study/research duration on a pro-rata basis. Tuition includes student service and amenities fees.

Note: For more information applicants must see the [Financial Benefits](#) section (page 7).

Restrições

The Endeavour Executive Fellowship is not suitable for academic research proposal.

Applicants who have already commenced or will commence their intended program prior to 2018 are not eligible to apply.

Forma de Solicitação

Applicants must be [Nominated](#) by a senior official in their host organisation which is physically located in their host country.

Note: For more information applicants must see [How to Apply](#) (page 10).

Observações

The professional development activity must be vocationally useful while not being geared toward an immediate commercial outcome as its purpose.

Professional development activities could include attending a conference or short course, management training, peer-to-peer learning or mentoring.

CIHR/SSHRC/NSERC - Banting Postdoctoral Fellowships Program 2017/2018

Descrição

The [Banting Postdoctoral Fellowships](#) program provides funding to the very best postdoctoral applicants, both nationally and internationally, who will positively contribute to the country's economic, social and research-based growth. The objective of the program is to:

1. Attract and retain top-tier postdoctoral talent, both nationally and internationally;
2. Develop their leadership potential;
3. Position them for success as research leaders of tomorrow.

The areas of research are:

1. Health research;
2. Natural sciences and/or engineering;
3. Social sciences and/or humanities.

Data Limite

September 20, 2017, 20:00 EDT.

Elegibilidade

The applicants must fulfill or have fulfilled all degree requirements for a PhD, PhD-equivalent or health professional degree between September 20, 2014 and September 30, 2018 (inclusively), and before the start date of their award.

Note: Applicants who are not Canadian citizens or permanent residents of Canada may only hold their fellowships at a Canadian institution. Applicants must contact [Institutions](#) that they think will be a good fit for them and their research and confirm that the desired institution is eligible to host a Banting Fellow.

Benefícios

US\$70,000.00 per year for two years (taxable).

Forma de Solicitação

The applicants must follow the instructions in the [Application Guide](#) and submit the application [Online](#).

Institutions Markets Technologies - PhD Program 2017

Descrição

Institutions Markets Technologies (IMT) School for Advanced Studies Lucca is a public graduate school and research institute that focuses on the analysis of economic, societal, technological and cultural systems.

The [Call for Applications of the IMT PhD Programs](#) are open now. Competitions for admission are open in the following Ph.D. Programs at IMT:

1. Analysis and Management of Cultural Heritage;
2. Cognitive, Computational and Social Neurosciences;
3. Computer Science and Systems Engineering;
4. Economics, Networks and Business Analytics.

Data Limite

July 18, 2017.

Elegibilidade

Applications are open to candidates who meet the following requirements:

1. Degree: "Laurea Magistrale" or "Specialistica", or a four- or five-year degree obtained in Italy; or foreign degrees with a minimum duration equivalent to four years (full time). The four-year duration should be considered a minimum but not sufficient requirement: the eligibility of degrees will be assessed by the Selection Committee;
2. Proficiency in English is compulsory as research and teaching are conducted in English.

Prospective students should preferably have an undergraduate background in the Social Sciences, the Humanities, or ICT related to Cultural Heritage.

Admission to IMT's PhD program is competitive on an international level. Applications are open to candidates without regard to nationality, age, gender or religion.

Benefícios

Scholarship gross amount: €13,638.47/year.

Additional benefits:

1. All PhD students admitted to the PhD program are exempt from paying tuition fees, although they are still responsible for paying the yearly Regional Education Tax (currently €140.00/year);
2. All PhD students are offered free meals (lunch and dinner) at the on-campus canteen;
3. All scholarship recipients are provided with free accommodation in shared double rooms within the campus residential facilities.

Forma de Solicitação

Candidates must apply via the [Online Application Form](#).

Observações

The Program official duration is three years. The Program starts on November 2, 2017.

Edital Capes nº10/2017: Programa Cátedra Capes/Universidade de Harvard nos EUA 2017/2018

Descrição

O [Edital Capes nº10/2017](#), referente ao Programa Cátedra Capes/Universidade de Harvard nos EUA, tem como objetivo selecionar notável pesquisador/professor sênior do Brasil, especialista em qualquer disciplina ou área acadêmica. O Programa visa aprofundar a cooperação acadêmica entre instituições de ensino superior e centros de pesquisa brasileiros e estrangeiros e aprofundar a cooperação entre pesquisadores e educadores de instituições de pesquisa e ensino superior no Brasil e seus pares da Instituição Anfitriã.

Data Limite

30 de junho de 2017.

Elegibilidade

O candidato ao Programa deverá atender os seguintes requisitos:

1. Ter concluído seu doutorado até 31 de dezembro de 2001;
2. Ser vinculado ao quadro permanente de instituição de pesquisa ou de ensino superior;
3. Ser docente e orientador em programa de pós-graduação reconhecido e recomendado pela Capes, de qualquer disciplina ou área acadêmica;

4. Estar em conformidade com os demais itens listados nos [Requisitos para a Candidatura](#) (página 1).

Benefícios

O candidato selecionado receberá, pela Capes, bolsa no valor de US\$10.400,00 pagos apenas nos meses de efetiva permanência nos EUA, auxílio deslocamento e auxílio seguro saúde. Pela instituição anfitriã, receberá estipêndio único no valor de US\$8.000,00, referente à auxílio instalação ou despesas relacionadas à pesquisa ou pessoais.

Willian T. Grant Foundation - Scholars Program 2017

Descrição

The William T. Grant Foundation aims to help create a society that values young people and enables them to reach their full potential. In pursuit of this goal, the Foundation invests in research and in people and projects that use evidence-based approaches.

The [William T. Grant Scholars Program](#) is for early-career researchers in the social, behavioral, and health sciences. The Foundation encourages Scholars to tackle important questions that will advance theory, policy, and practice for youth. Applicants identify new methods, disciplines, or

content they want to learn, and propose five-year research plans that foster their growth in those areas. The Foundation recognizes that early-career researchers are rarely given incentives or support to take such risks, so this award includes a mentoring component.

The Foundation funds research that increases the understanding of:

1. Programs, policies, and practices that reduce inequality in youth outcomes; and
2. Strategies to improve the use of research evidence in ways that benefit youth.

Data Limite

July 6, 2017.

Elegibilidade

Investigators at all nonprofit institutions, both in the United States and abroad, are eligible. Applicants must be within seven years of receiving their doctoral degrees or completion of their first medical residencies. Applicants must be nominated by their institutions.

Applicants must be employed in career-ladder positions. Potential Scholars should have a promising track record of conducting high-quality research, but want to pursue a significant shift in their trajectories as researchers.

Applicants outside the United States are eligible. As with U.S. applicants, they must pursue research that has compelling policy or practice implications for youth in the United States.

Note: The award is not intended for students or post-doctoral fellows.

Valor Financiado

Four to six William T. Grant Scholars are selected each year, and each receives US\$350,000.00 distributed over a five-year period.

Note: Awards begin July 1 and are made to the applicant's institution.

Forma de Solicitação

IRSF - Mentored Training Fellowship Program 2017

Descrição

The International Rett Syndrome Foundation (IRSF) is a 501c(3) non-profit corporation that mission is to accelerate full spectrum research to cure Rett syndrome and empower families with knowledge and connectivity.

IRSF announces the availability of [Mentored Training Fellowships Program](#) to support scientists early in their career to in both basic and clinical research in the field of Rett syndrome so that they become successful, independent basic research scientists and clinical investigators.

Data Limite

June 5, 2017.

Elegibilidade

The program are designed to assist post-doctoral and clinical scientist researcher in training to establish careers in fields relevant to Rett syndrome research. The Fellowship applicant is considered the Principal Investigator (PI) for the application, and is required to identify a sponsoring mentor.

The Foundation accepts qualified, scientific proposals from academic institutions, existing, private, early-stage pharmaceutical and biotechnology industries (if a clear need for non-profit funding to support the project is demonstrated and justified) and other non-profit organizations worldwide.

Note: Considering the interdisciplinary nature of research projects, collaborative studies among geneticists, molecular biologists, neuroscientists, child neurologists, medicinal chemists and pharmacologists engaged in drug discovery and other clinical or basic researchers are encouraged.

Valor Financiado

The maximum funding for Mentored Training Fellowships is US\$100,000.00 for two years (US\$50,000.00 per year).

Grants are made for PI salary support, technical support, supplies, equipment and relevant travel. Indirect costs of up to 10% of direct costs may be included within the request amount.

Forma de Solicitação

The investigator must submit a [Letter of Intent \(LOI\)](#) describing the project in a succinct manner. The LOI should include objectives and specific aims of the proposal, research design and methods, qualifications of the Principal Investigator and other principal investigators involved in the project and should not exceed two pages.

The Principal Investigators will need to submit a copy of their [Curriculum vitae](#) and that of their mentor.

Note: After review of the LOI, the Foundation will contact the investigator via email to invite or decline a full proposal. Successful applicants will be provided with specific instructions to login, download, complete and submit the electronic application form.

IAS - International Visiting Fellowships 2016/2017

Descrição

The Warwick Institute of Advanced Study (IAS), established in 2007, is dedicated to enriching the University's research environment by supporting Warwick academics, hosting a number of international visitors and enhancing the experience of postgraduate students and early career scholars.

The [International Visiting Fellowships](#) programme offers an opportunity for research groups to attract international fellows who can contribute to the wider research activity of the University by hosting external visitors for an extended period of time. The scheme provides a platform to:

1. Champion Warwick as a centre of scholarly excellence at an international level;
2. Raise the profile of Warwick's multi-disciplinary research community, including activity led by the Global Research Priorities;

3. Engage with external experts;
4. Enrich the research and training environment for early career postgraduate and postdoctoral scholars at Warwick.

Data Limite

July 5, 2017.

Elegibilidade

There are no geographical limitations on the scheme, however, the fellow(s) must be nominated by a permanent Warwick academic staff member (including probationary staff) who will serve as the nominator of the external candidate.

Benefícios

The maximum award value for a single visitor is £2,500.00. Nominations to host two or more visitors, or undertake a series of prolonged visits can claim up to £4,000.00.

In addition, applicants whose proposed activities include an event at Warwick's Venice Research Centre or at Warwick's Brussels Office are eligible to seek an additional £1,000.00 to support this aspect of the programme.

The fellow will also receive a standard per diem (to cover food and sundries) of £35.00 per day, up to a maximum of four weeks (£980.00).

Furthermore, the IAS will organise and pay in full the Visiting Fellow's accommodation in [Cryfield Grange](#).

Fellows may also be provided with an office in the IAS ([Millburn House](#)), if the sponsoring department/research centre requests this.

Note: The award funding is to be used to cover international and local travel expenses, publicity, event organisation and coordinator (for example ad-hoc administrative event support can be paid to postgraduate or postdoctoral researchers).

Forma de Solicitação

The completed [Application Form](#) should be submitted by email to IAS@warwick.ac.uk or a hard copy sent via the internal mail to the Institute of Advanced Study, Millburn House.

Thiel Foundation Fellowships

Descrição

The Thiel Foundation defends and promotes freedom in all its dimensions: political, personal, and economic. The Foundation the Fellows will pursue innovative scientific and technical projects, learn entrepreneurship, and begin to build the technology companies of tomorrow. The project areas for this class of fellows include biotech, career development, economics and finance, education, energy, information technology, mobility, robotics, and space.

Founded by technology entrepreneur and investor Peter Thiel in 2011, the [Thiel Foundation Fellowships](#) is a two-year program for young people who want to build new things. Thiel Fellows skip or stop out of college to receive a US\$100,000.00 grant and support from the Thiel Foundation's network of founders, investors, and scientists.

Note: It will be selected between twenty and thirty Fellows each year.

Data Limite

Applications are accepted on a rolling basis and reviewed as they come in.

Elegibilidade

Anyone under the age of 23 years old.

It is accepted applications from around the world.

Note: Fellows are encouraged to spend time during the program in Silicon Valley to make the most of the program.

Benefícios

US\$100,000.00.

Note: The funds can be used however Thiel Fellows want. The Fellowship does not take any ownership stake in the project.

Restrições

Thiel Fellows may not be in school during the two-year Fellowship Program.

Projects with IP restrictions (due to University contracts or cofounder conflicts) are not encouraged.

Forma de Solicitação

Applicants must complete the [Application Form](#).

Observações

Five years since the first Fellowship class, Thiel Fellows have started more than 60 companies that are together worth over US\$1.1 billion, and have created hundreds of jobs in the course of tackling problems ranging from telemedicine and human longevity to solar energy and clean water.

JNCASR-CICS Fellowship Programme for Scientists from Developing Countries

Descrição

Centre for International Co-operation in Science (CICS) is functioning under the patronage of Dr. Krishan Lal, FNA, President, Indian National Science Academy (INSA), New Delhi and Dr. T. Ramasami, FNA, Secretary, Department of Science and Technology (DST). The Centre is

mandated to spread the spirit of Science and Technology co-operation among developing societies.

The [JNCASR-CICS Fellowship Programme for Scientists from Developing Countries](#) is jointly instituted by the Jawaharlal Nehru Centre for Advanced Scientific Research (JNCASR), Bangalore, and CICS, Chennai, to encourage mobility of scientists from developing countries. The Fellowship covers short-term research, training or participatory research work in physical, chemical or biological sciences in reputed scientific institutions in India including JNCASR. About ten Fellowships are provided annually.

Data Limite

October 31, every year.

Elegibilidade

1. Applicant, other than Indian, possessing Doctorate or Master's Degree in Science or equivalent degree in Engineering/ Medicine and allied disciplines, below 45 years of age affiliated to a scientific or academic institution in a developing country, other than India;
2. Applicant must be a scientist, teacher or a research scholar affiliated to a scientific or academic institution in a developing country in Asia (other than India), Africa, Latin America and Arab region.

Benefícios

The Fellowship covers:

1. International return air fare by the shortest route by economy class from the place of work of the candidate at his/her country to the host institution in India;
2. Boarding, lodging, for the individual only, at the affiliated institution and other subsistence expenses in the form of an adequate allowance in Indian currency.

Forma de Solicitação

Applicants must complete the [Fellowship Application Form](#) (page 3) and submit in duplicate to:

Centre for International Co-operation in Science (CICS)
Director CICS
Gandhi Mandapam Road, N°2
600 025 Chennai-Tamil Nadu - Índia

List of enclosures to accompany the application:

1. A detailed *Curriculum vitae* containing the date of birth and age, applicant's research interest and experience, publications (only those in referred journals), present position, scientific affiliations, awards and scholarships;

2. A detailed write-up describing the proposed research work;
3. Two passport size photographs;
4. Copy of degree certificate for highest qualification;
5. A letter of consent from Parent Institution.

Radcliffe Institute at Harvard University - Individual Fellowship Program in Natural Sciences and Mathematics 2018/2019

Descrição

The Radcliffe Institute for Advanced Study at Harvard University is dedicated to creating and sharing transformative ideas across the arts, humanities, sciences, and social sciences. The Institute encourages applicants to explore the people, programs, and collections that make the Radcliffe Institute a home to big thinkers, new ideas and cutting-edge research.

The [Individual Fellowship Program in Natural Sciences and Mathematics](#) is a Program that is part of the Radcliffe Institute Fellowships, that are designed to support scholars, scientists, artists, and writers of exceptional promise and demonstrated accomplishment who wish to pursue work in academic and professional fields and in the creative arts. The Program covers the following disciplines:

1. Biology and Medical Sciences;
2. Chemistry;
3. Computer Science;
4. Earth and Planetary Sciences;
5. Engineering Sciences;
6. Mathematics and Applied Sciences;
7. Materials Science;
8. Physics and Astronomy/Astrophysics;
9. Statistics.

Data Limite

October 5, 2017.

Elegibilidade

1. Scholars in any field with a doctorate in the area of the proposed project by December 2016 are eligible to apply;
2. Only scholars who have published at least two articles in journals are eligible to apply.

Note: Applicants may not be students in a degree program at the time of application submission.

Benefícios

1. Stipends are funded up to US\$77,500.00 for one year with additional funds for project expenses;
2. Some support for relocation expenses is provided where relevant. If so directed, Radcliffe will pay the stipend to the fellow's home institution.

Note: Applicants must read the [Terms and Conditions](#) for more information.

USC/OIJ - Spin Way 2017

Descrição

A Universidade de Santiago de Compostela (USC) é uma universidade pública sediada na cidade de Santiago de Compostela, Galiza, Espanha. Está dividida em quatro campi, três na cidade compostelana (Campus Norte, Campus Sul e Campus Histórico) e um localizado em Lugo. Foi fundada em 1495, sendo a principal e mais antiga universidade da Galiza, a sétima mais antiga da Península Ibérica e uma das universidades mais antigas do mundo. Dela fazem parte dezenove faculdades.

O Programa [Spin Way](#) combina a tradição do Caminho de Santiago com o talento da juventude ibero-americana. O Programa ajuda os novos empreendedores a lançarem as suas empresas através de uma experiência única em que irão provar a sua resistência, conhecimentos e capacidade de cooperação.

Data Limite

Prazo prorrogado: 12 de maio de 2017, às 14h (Madrid-Espanha).

Elegibilidade

Os candidatos devem:

1. Ser estudantes do último ano de Graduação, ou estudos equivalentes, estar cursando um programa de pós-graduação ou de doutoramento em alguma universidade da região ibero-americana. Também poderá participar desde que seja licenciado e tenha completado o curso no ano 2014 ou posteriores;
2. Ter um modelo de negócio que destaque pelo seu elevado grau de inovação e potencial de crescimento, forte orientação para o mercado e alto impacto social, ambiental e econômico nas comunidades onde se desenvolva.

Benefícios

As despesas de deslocação dos participantes durante o desenvolvimento do Programa serão pagas pela organização. Adicionalmente, o Organismo Internacional de Juventude para a Ibero-América (OIJ) prestará apoio econômico para a deslocação a Espanha das pessoas selecionadas que viajarem da América Latina.

Nota: Para mais informações, os interessados devem consultar o item [Benefícios da Participação](#) (página 7).

Restrições

Não poderão participar modelos de negócio que tenham sido constituídos legalmente como empresas.

Forma de Solicitação

Os candidatos devem:

1. Realizar o [Registo](#) no site do Spin Way.
2. Preencher o formulário de inscrição ao programa anexando a seguinte documentação:
 - a. Currículo Vitae da equipe empreendedora;
 - b. Vídeo-Pitch explicativo do modelo de negócio;
 - c. [CANVAS](#) do modelo de negócio equivalente a uma folha (por uma só face), e de tamanho não superior a 1MB em formato PDF;
 - d. Documento comprovativo da relação de, pelo menos, um dos membros da equipe com uma Instituição de Ensino Superior da Espanha, Portugal, América Latina ou o Caribe.

AMNH - Ph.D. in Comparative Biology at the Richard Gilder Graduate School (RGGS) 2017

Descrição

The American Museum of Natural History (AMNH) is one of the world's preeminent scientific and cultural institutions. Since its founding in 1869, the Museum has advanced its global mission to discover, interpret, and disseminate information about human cultures, the natural world, and the universe through a wide-ranging program of scientific research, education, and exhibition.

The [Ph.D. in Comparative Biology at the Richard Gilder Graduate School \(RGGS\)](#) is training the next generation of biologists through an integrative approach focused on the history, evolutionary relationships, and interactions among species. This is an accelerated program, designed for students to complete their degrees in four years. The Richard Gilder Graduate School will typically provide full financial support to students matriculating in the Comparative Biology Ph.D. Program.

Data Limite

December 15, 2017.

Elegibilidade

The Museum encourages women, minorities, persons with disabilities, Vietnam Era and disabled veterans to apply.

The Museum does not discriminate due to age, sex, religion, race, color, national origin, disability, marital status, veteran status, sexual orientation, or any other factor prohibited by law.

Benefícios

The Richard Gilder Graduate School will typically provide full financial support to students matriculating in the Program, through a combination of generous philanthropic support, as well as foundation and governmental training grants to the institution or individual students.

Forma de Solicitação

There are four parts to the application process:

1. [Online Application](#);
2. Documents to upload;
3. Documents to mail;
4. Recommendation letters.

National Academies - Christine Mirzayan Science and Technology Policy Graduate Fellowship Program 2018

Descrição

The National Academies of Sciences, Engineering, and Medicine are private, nonprofit institutions that provide expert advice on some of the most pressing challenges facing the nation and the world. Its work helps shape sound policies, inform public opinion, and advance the pursuit of science, engineering, and medicine.

The [Christine Mirzayan Science and Technology Policy Graduate Fellowship Program](#) provides early career individuals with the opportunity to spend twelve weeks at the Academies in Washington, DC learning about science and technology policy and the role that scientists and engineers play in advising the nation.

Data Limite

September 8, 2017.

Elegibilidade

The Program is:

1. For graduate students, postdoctoral students, and professional school students (Master's, JD, MD, PhD);
2. Open to US citizens, US permanent residents, and non-US citizens who hold one visa.

Note: Applicants must read the [Eligibility](#) for more information.

Benefícios

The stipend for the twelve-week program is US\$9,000.00.

Forma de Solicitação

Applicants must apply [Online](#).

Note: Applicants must read the [How to Apply](#) and [Frequently Asked Questions](#) for more information.

UTS - Chancellor's Postdoctoral Research Fellowships 2018

Descrição

The University of Technology of Sydney (UTS) is a dynamic and innovative university in central Sydney. One of Australia's leading universities of technology, UTS has a distinct model of learning, strong research performance and a leading reputation for engagement with industry and the professions.

[UTS Chancellor's Postdoctoral Research Fellowship Scheme](#) aims to support the UTS Research Strategic Plan by attracting and retaining outstanding early career researchers across the following UTS Research Focus Areas:

1. Health;
2. Data Science;
3. Sustainability;
4. Social Futures;
5. Future Work and Industry.

Data Limite

May 19, 2017.

Elegibilidade

Candidates must have been awarded a research doctoral degree (equivalent to an Australian PhD degree) within the last five years. Research doctoral degree candidates whose thesis is under examination at the closing date, and research doctoral degree candidates who will submit their PhD thesis by 30 June 2017 may also apply.

International candidates are welcome to apply.

Note: To be eligible, candidates must nominate and consult closely with one UTS supervisor in developing an EOI.

Benefícios

Fellows will initially be appointed at Academic Salary Level B, Step 2. The annual full-time salary for Level B Step 2 will be US\$99,924.00 as of 1 May 2017 and will increase in line with the UTS Academic Staff Agreement. In addition, the University offers 17% employer-provided superannuation contribution.

For the duration of the Fellowship, a research grant will be provided to support the proposed research program. Up to US\$30,000.00 in total project funding will be available for each successful Candidate, according to the approved budget. Where the proposed project substantially relies on the extensive use of laboratory facilities or on extensive field research, Candidates may apply for up to US\$50,000.00 in total project funding to assist with additional expenses for equipment, maintenance, consumables and/or field work sustenance, where appropriate.

Human Life Advancement Foundation Science & Technology Scholarships

Descrição

The Human Life Advancement Foundation (HLAF) acts in the fields of the education, technology transfer and sustainable development in developing world. Their mission are to develop networks of organizations and individuals able and willing to contribute to the needs of society, as well as in the development of internationally competent individuals.

The [Human Life Advancement Foundation Science & Technology Scholarships](#) aims to encourage those about to begin their PhD and Postdoctoral studies.

Note: The Scholarships are awarded twice a year in both fall and spring semester.

Data Limite

For individual application or through institution within HLAF networks: April 15 until June 15 each year.

Application for project support all year round: no deadline.

Elegibilidade

Local and international students in any discipline that supports technology and innovations.

Applicants must have:

1. Strong academic record and excellent academic references;
2. Demonstrated potential for high quality research;
3. Record of publication in high quality journals commensurate with experience and education.

Maximum age:

30 years: for postgraduate student at PhD level;
35 years: for postdoctoral researchers.

Benefícios

Maximum scholarship value:

PhD: US\$15,000.00 per year;
Post doctorate: US\$35,000.00 per year.

Forma de Solicitação

Application can be made [Online](#).

Observações

Applicants must:

1. Have received acceptance (offer) letter to pursue PhD at recognized universities;
2. Be in excellent health condition and certified by a Certified Doctor/Medical Professional: the cost of medical examination is to be borne by the applicants;
3. Have a score of at least 550 in the Test of English as a Foreign Language (TOEFL) or 6.0 points in the International English Language Testing Services (IELTS) or score a band 4 in Malaysian University English Test (MUET).

TWAS/CSIR - Postgraduate Fellowship Programme in India (Sciences and Technology) 2017

Descrição

The Academy of Sciences for the Developing World (TWAS) is an autonomous international organization based in Trieste, Italy. Its principal aim is to promote scientific capacity and excellence for sustainable development in the South. Each year, the TWAS Fellowship Programmes, which operate under agreements with governments and national organizations in developing countries, offer a number of fellowships to scientists from developing countries to carry out research in developing countries other than their own.

The Council of Scientific and Industrial Research (CSIR) of India and TWAS have established a number of [Fellowships](#) for foreign scholars from developing countries who wish to pursue research toward a PhD in emerging areas of science and technology for which facilities are available in the laboratories and institutes of the CSIR. Applicants may be registered for a PhD degree in their home country, or may enrol in a PhD course at any University in India.

Data Limite

June 26, 2017.

Elegibilidade

Applicants for the fellowships must meet the following criteria:

1. Be a maximum age of 35 years on 31 December of the application year;
2. Be nationals of a developing country (other than India);

3. Must not hold any visa for temporary or permanent residency in India or any developed country;
4. Hold a Master's degree in science and technology;
5. Be regularly employed in their home country and hold a research assignment there;
6. Sandwich Fellowships: be registered PhD students in their home country and provide the "Registration and No Objection Certificate" from the home university;
7. Full-time Fellowships: be willing to register at a university in India within the first year, if agreed to by CSIR;
8. Be accepted at a CSIR laboratory/institution and provide an official acceptance letter from the host institution;
9. Provide evidence of proficiency in English, if medium of education was not English;
10. Provide evidence that s/he will return to her/his home country on completion of the fellowship;
11. Not take up other assignments during the period of her/his fellowship;
12. Be financially responsible for any accompanying family members.

Benefícios

CSIR will provide a monthly stipend to cover for living costs, food and health insurance. The monthly stipend will not be convertible into foreign currency. In addition, Fellowship awardees are entitled to subsidized accommodation.

Forma de Solicitação

Applications for the TWAS-CSIR Postgraduate Fellowship Programme can only be submitted to TWAS via the [Online Portal](#) and copy of the submitted application must be sent to CSIR by email.

Applicants should submit the acceptance letter from a CSIR institution to CSIR and TWAS when applying or by the deadline. Without preliminary acceptance, the application will not be considered for selection.

Observações

Information on CSIR laboratories and institutes can be obtained by following the links from the [CSIR Homepage](#). Alternatively, a list of eligible institutes is available [Here](#).

The language of instruction for foreign scholars in CSIR laboratories/institutes is English.

EURIAS Fellowship Programme 2018/2019

Descrição

The [European Institutes for Advanced Study \(EURIAS\) Fellowship Programme](#) is an international researcher mobility programme offering ten-month residencies in one of the nineteen participating Institutes: Aarhus, Amsterdam, Berlin, Bologna, Budapest, Cambridge, Delmenhorst, Edinburgh, Freiburg, Helsinki, Jerusalem, Lyon, Madrid, Marseille, Paris, Uppsala, Vienna, Warsaw, Zürich. The Institutes for Advanced Study support the focused, self-directed work of outstanding researchers. The fellows benefit from the finest intellectual and research conditions and from the stimulating environment of a multi-disciplinary and international community of first-rate scholars.

Note: The Fellowships are mainly offered in the fields of the humanities and social sciences but may also be granted to scholars in life and exact sciences, provided that their proposed research project does not require laboratory facilities and that it interfaces with humanities and social sciences.

Data Limite

June 7, 2017, 4 PM GMT, 6 PM Paris/Brussels time.

Elegibilidade

The Programme welcomes applications worldwide from promising young scholars as well as from leading senior researchers.

Note: For more information candidates must see the [Eligibility Requirements](#) (page 2).

Benefícios

1. Living allowance in the range of €26,000.00 for a junior fellow and €38,000.00 for a senior fellow;
2. Adequate social security coverage;

3. Accommodation or support for relocation;
4. A research budget;
5. Travel expenses (one round trip);
6. Same working conditions as the IAS' other fellows.

Note: For more information candidates must see the [Terms and Conditions](#) (page 3).

Forma de Solicitação

Candidates must see [How to Apply](#) (page 5).
